The Snack Factory, began creating quality potato crisps in 1996 with its first brand Krackles Crisps. Today, the Snack Factory houses over 14 brands.

We continue to grow our product range, creating extruded snacks, tortilla chips, potato crisps, cooking sauces and condiments.

Our potato crisps remain the most popular item of our product range. Each crisp is perfectly well done and seasoned to the 'T'. Made from farm fresh potatoes to the perfect potato crisp in just a day; every day, always fresh.

Our corn tortilla chips are made from whole kernel corn that is ground into masa dough, rolled out and cut into shape before they are baked and fried. We sprinkle our corn tortilla chips with exceptional flavours, before they are packed and shipped to the stores.

Artisan dips and salsas\ are part of our product portfolio now.
